Bullet Point Comments
BDCP April 30, 2008, meeting
Clarksburg

1. If it were not for one alert Clarksburg citizen, we would not have known about this meeting.
2. The report fails to address or mention the "human inhabitants" of the Delta.
3. The study cites the DWR model for potential sea level elevations. There are multiple models each stating different levels.
4. The list of stakeholders, in the information handed out by BDCP, shows the lack of local participation/representation. The stakeholders list is also devoid of elected officials. Who is accountable to the citizens of the affected areas?
5. I am concerned with any plan that has a time line of 50 to 100 years. No one knows the future. When I was in high school I had a teacher that felt the best thing we could do for mankind was to find ways for humanity to cope with global cooling (the impending "little ice age").
6. I am concerned with the; Taking of Species, the Taking of Land and the Taking of a way of Life.
